The following criterias are used to create the 5 districts:

1 District 3 is created first based on the highest Hispanic percentage of total population. The Unit ID numbers that have percentage of population of Hispanics 35% or more are circled in the colored Population Unit ID Map (attached with email).

2 Approximate elementary school boundaries (based on Population Unit ID) of each Alhambra Unified School District are next drawn on the map as guidelines for the other 4 districts.

3 Each Population Unit ID are added to each based on the first 2 criteria, with a conscious balance of Number of Population, Voters and Registration in mind. Each district has almost equal number of Population, equal number of Voters and equal number of Registration.

4 Population Unit ID# 22 and 1 are purposely left out, because ID#22 is East Los Angeles College, and ID#1 is Monterey Park Marketplace. These two IDs should never be controlled by any district. Each district has some share of each of the business districts of the city [NDC note: Population Units 22 and 1 have been added to their surrounding districts by NDC because by law all city territory must be assigned to a district.]

Proposed Election Sequence:

2020: Districts 1 (Ing and Liang), 3 (Lam) and 5 (Real Sebastian)

2022: Districts 2 (vacant) and 4 (Chan)

I think this map makes sense because: it follows the boundaries of most school districts and school communities, keeps neighborhoods together, reduces confusion (because current council members are each represented in a separate district) and a Latino district of 56% is created as required by the California Voting Rights Act.

Proposed Election Sequence:

2020: Districts 1 (Ing), 3 (Lam) and 5 (Real Sebastian)

2022: Districts 2 (Liang) and 4 (Chan)
