SUBJECT: Extension of the Fire Captain Eligibility List

RECOMMENDATION:

It is recommended that the Personnel Board:

1. Approve the recommended extension of the Fire Captain Eligibility List; and
2. Take such additional, related action that may be desirable.

EXECUTIVE SUMMARY:

The Fire Captain Eligibility List was certified on October 23, 2017. This list was recertified on October 22, 2018 and is set to expire April 22, 2019. In anticipation of upcoming vacancies, Chief Haberle is requesting an extension of the current Eligibility List for six months. There are a number of qualified candidates on the current Eligibility List who have all gone through an intensive two-day Assessment Center and only one candidate has been selected to fill a vacancy since last year.

It is recommended that the Personnel Board approve the extension of the Fire Captain Eligibility List.

BACKGROUND:

The Fire Department Assessment Center for the position of Fire Captain entailed two full days of extensive testing that include manipulative skills testing, incident simulations, command, leadership skills, presentation skills, and oral board interviews. Depending on the number of components, the Assessment Center requires nine to twelve raters of industry experts, in addition to including non-sworn personnel. Due to the number of retirements that our agency and others in the region have been experiencing, trying to obtain assessors has been difficult. When two days of assessment components are involved, we try to get the same assessor each day to ensure consistency of rating and objectivity. Currently, the Fire Captain Eligibility List has six candidates remaining.

Extending the eligibility list will help fill the positions as soon as possible to ensure consistency of service, provide a smooth transition for personnel to the new positions, and reduce the impact to operations and the expense of overtime. The extension of the list would also be aligned with the Fire Department’s goals of the Recruitment and Succession Plan. Therefore, it is recommended that the Personnel Board approves to extend the Fire Captain Eligibility List for six months, until October 22, 2019.

SUBJECT: Update and Reclassify the Deputy Fire Marshal Class Specification

RECOMMENDATION:

It is recommended that the Personnel Board:

1. Approve the recommended request to update and reclassify the Deputy Fire Marshal class specification; and

2. Take such additional, related action that may be desirable.

EXECUTIVE SUMMARY:

The Deputy Fire Marshal position at the Fire Prevention Division of the Monterey Park Fire Department has evolved over the years to the point where it no longer is accurately portrayed by its class specification. The duties of the Deputy Fire Marshal in the Fire Department are not similar to those of a traditional Deputy Fire Marshal. A new classification, Fire Marshal, is needed to accurately describe the scope of duties of the position.

It is recommended that the Deputy Fire Marshal class specification in the Fire Department be updated and reclassified to a civilian class specification of Fire Marshal.

BACKGROUND:

The Deputy Fire Marshal position reports to the Fire Chief, or designated Division Chief, in the Fire Department. The classification is represented by the Monterey Park Mid-Management Association. The primary duties of a Deputy Fire Marshal position, according to its class specifications, include but are not limited to:

- Supervises Fire Prevention Inspectors and staff assigned to the division
- Inspects commercial and industrial buildings, schools, and other related structures and facilities
- Reviews building plans for conformance with fire protection laws and regulations and for possible fire hazards
- Investigates complaints from private citizens and other city departments relating to fire and safety hazards
- Provides technical advice regarding the installation and maintenance of fire prevention equipment
- Instructs fire department personnel on inspection procedures and problems
Speaks before school groups and other organizations on fire prevention matters
Confers with the Division Chief supervising the division regarding overall departmental fire prevention and inspection programs
Administers restaurant interceptor program
Maintains required records and prepares reports; issues correction notices and citations
Prepares public education programs on safety

The Deputy Fire Marshal position in the Fire Department performs the duties above, but the work is more focused on the following duties listed for the proposed Fire Marshal, which include but are not limited to:

Performs responsible management, technical, and administrative work in Fire Prevention and Code Enforcement operations;
Supervise, direct, plan, and review the work of the Fire Prevention Inspectors, Code Enforcement Officers, and staff assigned to the division
Verify the investigative and inspection work of employees for accuracy, proper work methods, techniques and compliance with applicable standards and specifications.
Develop, supervise, and coordinate the department’s fire prevention and code enforcement program promoting community risk reduction programs by identifying existing and potential fire hazards and neighborhood degradation in the community and effectively implement prevention, mitigation, and enforcement to mitigate hazards
Plans, organizes, and directs the work of fire prevention and code enforcement personnel in the inspection of industrial, commercial, residential, and public buildings to ascertain evidence of fire hazards, neighborhood degradation, and community risk reduction
Participate in the development and implementation of a comprehensive code enforcement program
Enforce fire laws, codes, and regulations, initiate notices, citations, and criminal complaint procedure, and serve as an expert witness testifying in court cases involving fire and code violations
Stays current on the legal and technical developments in the fire protection field
Provides input at meetings with local, regional, and state officials regarding the City’s positions on items of interest to the City
Promotes public relations through community risk reduction programs, speaks at various civic and professional organizations to promote the goals of the City, meets with industrial and business representatives to promote cooperation and provide information regarding codes and standards, makes presentations and participates in promotional events, demonstrations, and fire and life safety programs
Participate in the development and implementation of program goals, objectives, policies, and priorities for assigned area; identify needs; recommend and implement policies and procedures
- Participate in the development, preparation, and monitoring of the budget for assigned area of responsibility, forecast funds needed for staffing, equipment, materials, and supplies, direct the monitoring and approval of expenditures, recommend adjustments as necessary
- Develop, coordinate, and establish community risk reduction plans for fire prevention and code enforcement services, programs, and activities
- Responsible for recovering costs for inspection services, plan reviews, and fire permits required by the California Fire Code or other regulations and investigations
- Respond to and resolve difficult and sensitive customer requests, complaints, and inquiries
- Ensure compliance with appropriate laws, codes, and regulations

The Fire Marshal position would work independent of the Fire Division Chief and work directly for the Fire Chief. Therefore, the Fire Marshal must have the knowledge and ability to carry out the duties normally overseen by the Division Chief. A Safety grade Division Chief Position was eliminated in 2008. This position would assume the duties associated with the previous position minus the safety designation and associated duties. In addition, this position would assume the leadership and supervision of the Code Enforcement Division for the City as well as the Fire Prevention duties. The proposed position will be represented by the Monterey Park Mid-Management Association.

FISCAL IMPACT:

A survey was conducted of nearby cities. Six of the cities surveyed use the classification of Fire Marshal which performs duties similar to those described above and at a comparable level of responsibility of the proposed Fire Marshal. The job descriptions of these cities were reviewed to ensure that they were compatible with duties and level of responsibility with the proposed City’s classification. The average salary range of the Fire Marshal positions of two cities surveyed most like Monterey Park is $8,564 to $10,573 and it should be noted that neither of these cities include oversight of their City Code Enforcement Division.

The monthly salary range of the current Deputy Fire Marshal classification is $6,147 to $7,863. It is recommended that the monthly salary range of the Fire Marshal be set at $8,564 to $10,573. The proposed salary is commensurate with the duties and the level of responsibility of the position.

Therefore, it is recommended that the Fire Marshal class specification be approved and the Deputy Fire Marshal position in the Fire Department be reclassified.

TO: Members of the Personnel Board

FROM: Tom Cody, Director of Human Resources and Risk Management

SUBJECT: Update and reclassify the Recreation Superintendent class specification

RECOMMENDATION:

It is recommended that the Personnel Board:

1. Approve the recommended request to update and reclassify the Recreation Superintendent class specification; and

2. Take such additional, related action that may be desirable.

EXECUTIVE SUMMARY:

The Recreation Superintendent position in the Recreation and Community Services Department has evolved over the years. The current class specification, last modified 19 years ago, does not accurately represent the position. The duties of the Recreation Superintendent has absorbed additional duties from positions that were eliminated during the recession and has taken on new responsibilities as the field continues to evolve and change.

This position oversees fourteen full-time staff and during peak programming months (May-August) there is an average of 100 part-time employees. There are thirteen park sites, two swimming pools, eight ball fields, two gymnasiums, eleven (reservation based) picnic shelters, senior center, transportation (Dial-A-Ride) program, day care facility, and seven reservation facilities. The Department requires adequate supervision and monitoring to maintain training and safety standards to provide the highest quality programming for the community.

It is recommended that the Recreation Superintendent class specification in the Recreation and Community Services Department be updated and reclassified to Recreation Manager.

BACKGROUND:

The Recreation Superintendent position reports to the Director of Recreation and Community Services. One of the primary duties of a Recreation Superintendent position, according to its class specifications, includes planning, developing, organizing and directing the coordination of recreational services in the Recreation and Community Services Department including cultural and recreation activities for participants in all age groups and with a wide range of abilities. Examples are: traditional after school and summer playground programs, aquatics, adult leagues and recreational classes. Since the classification approval 19 years ago, the position has evolved and includes duties
such as managing and supervising all Recreation facilities, Aquatics centers, Senior Services, Senior/Disabled transportation, media productions, special events, and contract recreational activities and much more which is referenced in Attachment 1.

In addition to the above duties, the Recreation Superintendent was assigned the oversight and management of the Langley Senior Center in FY 2018-19 and with this approved reclassification, this position will be clearly designated the second-in-command of the Department in the proposed 2019-2020 proposed budget (see organization chart changes in Attachment 3).

The Recreation Manager position would act in the absence of the Director of Recreation and Community Services, and therefore, must have the knowledge and ability to carry out the duties normally performed by the Director of Recreation and Community Services. The Director of Recreation and Community Services position is part of the Executive Management team. The proposed Recreation Manager position will be represented by the City’s Mid-Management Association, which is the same bargaining unit as the Recreation Superintendent position.

**FISCAL IMPACT:**

A survey was conducted of surrounding, comparable cities. Six of the cities surveyed use the classification of Deputy Director or Manager which performs duties similar to those described above and at a comparable level of responsibility of the proposed Recreation Manager. The job descriptions of these cities were reviewed to ensure that they were compatible with duties and level of responsibility with the proposed City’s classification. The average salary range of the Recreation Management positions of seven cities surveyed is $8,201 to $10,286.

The monthly salary range of the current Recreation Superintendent classification is $6,558-$8,389. It is recommended that the monthly salary range of the Recreation Manager be set at a salary range comparable to other positions similar in the Recreation field and the salary is to be commensurate with the duties and the level of responsibility of the position.

Therefore, it is recommended that the Recreation Manager class specification be approved and the Recreation Superintendent position in the Recreation and Community Services Department be reclassified.
