Next regular scheduled meeting on February 18, 2020.

Design Review Board Staff Report

DATE: February 4, 2020

AGENDA ITEM NO: 3-A

TO: Design Review Board
FROM: Mark McAvoy, Director of Public Works/City Engineer/City Planner
BY: Jeffrey Rimando, Assistant Planner
SUBJECT: Single Family Dwelling Addition Greater than 2,000 Square Feet – 262 Coral View St (DRB-19-15)

RECOMMENDATION:

It is recommended that the Design Review Board consider:

- (1) Opening the public hearing;
- (2) Receiving documentary and testimonial evidence;
- (3) Closing the public hearing;
- (4) Approve the requested Design Review Board (DRB-19-15) application, subject to conditions of approval contained therein; and
- (5) Take such additional, related, action that may be desirable.

CEQA (California Environmental Quality Act):

Pursuant to the California Environmental Quality Act (CEQA) guidelines, the project is categorically exempt under § 15303, Class 1 (Existing Facilities) (e) (1) Addition to an existing structure provided that the addition will not result in an increase of more than 50 percent of the floor area of the structures before addition.

EXECUTIVE SUMMARY:

The applicant, Willie Wong, on behalf of the property owner, is requesting design review approval for an addition to an existing single-family dwelling that will result in a total square footage greater than 2,000 square feet at 262 Coral View Street. The property is zoned R-1 (Single-Family Residential) and is designated LDR (Low Density Residential) in the General Plan.

Property Description

The property is located on the south side of Coral View Street, two lots east of Bloom Drive. The lot is 10,460 square feet in size and is currently developed with a 2,476 square foot two-story single-family residential dwelling with an attached 2-car garage.

The surrounding properties located to the north, south, east and west are zoned R-1 and developed with single-family residential dwellings. The subject and adjacent

properties are relatively flat. The design and character of the surrounding residential dwellings have a mid-century architectural style consisting of single-story dwellings with attached 2-car garages and gable roof designs built in the early 1950's.

Project Description

The applicant is proposing an interior remodel and a new 400 square foot first floor addition. Based on the lot area of 10,460 square feet, the maximum allowed floor area ratio is 35 percent of the lot area or 3,661 square feet. The proposed square footage will be 783 square feet less than the maximum square footage allowed. The R-1 zone allows for a maximum building height of 30 feet. The residential dwelling will be 2-stories and will have a maximum building height of 21 feet and 7 inches. The proposed residential dwelling will meet the required side setbacks of 5 feet for the first floor, 10 feet for the second floor and 25 feet from the front and rear property lines.

The first level addition and remodel will include a new bedroom and bathroom and a new laundry room. The second floor consisting of a bathroom and bedroom will remain unaltered. Single-family residential dwellings with 4 bedrooms require 2 enclosed garage spaces. Based on the number of bedrooms, the existing attached 2-car garage meets the required parking for the single-family dwelling.

Architecture

The existing house was built in 1954 and has a mid-century architectural style with a mainly gable roof design with an existing dutch gable roof feature on the front façade of the existing garage and stucco covered exterior walls. The first floor addition will be consistent with the existing architectural style. The addition and existing exterior walls will consist of light blue sand finish stucco (Behr: Light Drizzle N480-1). The proposed addition will feature a hip roof design to be consistent with the roof design of the existing residence. The roof will have black colored shingles to match the existing roof (Owens Corning, Color: Onyx Black). The roof eaves, rain gutters and downspouts will be painted white.

The windows will be single hung and sliding vinyl frame windows in a white color (Milgard: Single Hung/Horizontal Slider, White). In a slight contrast to the proposed stucco, the existing entry door, garage door and window shutters on the front facade will be painted a darker shade of blue (Behr: Compass Blue MQ5-54).

Landscaping

As part of the new construction of the single-family residential dwelling, the existing landscaping will mainly remain unaltered. However, new landscaping will be proposed in the northeastern corner of the property to help soften the amount of hardscape in the front yard. The new landscaping will consist of a new groundcover and shrubs. The proposed shrubs include Deer Grass and Catmint and a Silver Carpet groundcover. Staff believes that the proposed contemporary architectural style with the existing landscaping areas is in keeping with the residential character of the area.

CONCLUSION:

Staff reviewed the application and believes the single-family dwelling is appropriately designed for the site and compatible with the surrounding residential neighborhood, with the recommended conditions. The proposed contemporary architectural style fits within the character of the neighborhood.

ATTACHMENT 1

Conditions of Approval

CONDITIONS OF APPROVAL:

1. All work performed must be in substantial conformance with the plans date-stamped January 10, 2020, unless changed by any of the succeeding conditions. Future modifications that are not in substantial conformance, as determined by the Planner, shall require modification of this approval subject to the provisions of MPMC § 21.36.120.
2. Quality of all finished work shall be per planner's approval before approval from Planning on building permit final.
3. The property must be kept free of trash and debris at all times.
4. The applicant/property owner must sign and have notarized an affidavit acknowledging acceptance of the conditions of approval and return it to the Planning Division within 30 days of the effective date of this approval, or prior to the issuance of Planning's stamp of approval for building permit.
5. This approval is for a new 400 square foot addition and interior remodel of the existing single-family dwelling with an attached 2-car garage (case no. DRB-19-15), and is not an approval of building permits, which must be applied for separately with the Building Division.
6. A complete copy of these conditions, as approved, shall be listed on the second sheet of plans submitted for a building permit pertaining to this project.
7. All conditions of this approval must be complied with prior to issuance of Planning Division's final approval for building permits.
8. Decision by the Board will be finalized 10 days after the date of the meeting. Appeal of the Board's decision must be submitted on appropriate forms to the City Clerk prior to midnight of the tenth day. After the ten days are barring an appeal, you may submit your plans for approval and apply for permits.
9. All landscaped areas and existing irrigation system must be properly maintained at all times.
10. The HVAC Condenser unit must be located in the rear or interior side yard screened from public view and cannot be located any closer than 5 feet to a side or rear property line that abuts a residential zone property.
