Our New Catalog

The Monterey Park Bruggemeyer Library on-line catalog is available for your use from any Internet capable computer in the library, at home, or anywhere. There are two primary capabilities: searching for an item in our catalog and managing your library account. Instructions on the catalog are provided here. Account information can be found in a different document. If you need help, please don’t hesitate to ask a staff member for assistance.

ACCESSING THE CATALOG:

1. You can get to the catalog directly using the catalog URL. It’s http://library.montereypark.ca.gov/.
2. On the library website (https://www.montereypark.ca.gov/Library), you’ll see a link to the catalog or a catalog search box where you can enter your terms directly.

SEARCHING:
There are 3 ways of searching: “Search/Search All Fields”, “More Search Options”, and “See What’s Hot”. The “Search All Fields” option is used when you use the search box from the library’s homepage.

Search All Fields: most likely, you’ll want to use this simple search. It performs a Google® type search. It searches all titles, subtitles, authors’ first and last names, various notes, and a number of other fields. You’ll be presented with the list of items that match all of the words you entered. Word order and letter case do not matter. To use this method, simply type a word, words, or phrase into the “Search box” blank at the top of the screen. Then either push the Enter key on your keyboard, or click the GO! button. Other search options in the drop-down menu are “Title Starts With”, “Title Contains”, and “Author”.

Keyword Search Examples:
- DVDs based on books by John Grisham: grisham dvd
- The Lord of the Rings series: lord of the rings
- Snakes in Texas: snakes texas
- Items involving a particular fictitious character: jack ryan
- That book you heard about once, written by somebody named Fred that has “Sea” somewhere in the title: fred sea
- More Search Options:
  If you wish to perform very detailed searches this option is for you. It also allows you to examine the subject categories that the library is using.

NOTE: Search commands, such as “AND”, “OR”, and surrounding phrases in double quotes, are not supported. Punctuation is not recommended.
What’s Hot: Have you ever wanted to know what new items are available in the library since the last time you looked? Curious about what items are the most read at your library? Or do you want to see the library’s Recommended Reading list(s)? The “What’s Hot” on the catalog home page will show you.

SEARCH RESULTS
Below is example image of a search result. It shows results for a 3-word search: dogs puppies training. Each line/item is color coded: Green for “In” and available for check out, and Pink for “Out” and not available. The “Label” column tells you where to locate the item in the library. The “In” column tells you how many copies are available, etc. (Note: if you were to perform another search, your previous search(es) will appear above the current results for fast access. Instead of the “Back” button, use this history listing).

You can:
● Click an item, green or pink, to see more information and to place a reserve on it
● Click on a column heading (Label, Title, Author, and etc) to sort the list by that heading. Click again to sort in the reverse direction.

When you click on an item, the item will expand in the search results list revealing more information. For example, by clicking a subject (e.g. Puppies) you get a list of additional books we have in that subject.

You can also place a reserve on that item by logging in and you will be notified when it becomes available. You can find more information on reserves in the companion document: Our New Features for Patrons.

We hope you enjoy our new catalog. Let us know what you think.
