

TISSUE PAPER JELLYFISH

TAKE AND MAKE

Materials:

- 1 styrofoam bowl
- tissue paper
- glue
- sponge
- 4 pieces of purple ribbon
- googly eyes

Directions:

- Ask an adult to help you punch two holes in the bottom of the bowl.
- While holding the bowl upside down, thread the pieces of ribbon, one at a time, up through one of the holes in the bowl and down through the hole on the other side. These are the tentacles of the jellyfish.
- Keep your paper bowl upside down and add glue all over the bottom of it and the sides using the sponge. Put your tissue paper squares all over your bowl, covering the bottom and sides of the bowl. You might want to add a little more glue to corners of tissue paper that are still sticking up. Let your glue dry completely.
- Glue the googly eyes where you would like the jellyfish's eyes to be.
