WINDSOCK

TAKE AND MAKE

Materials:

- Watercolor paper
- White crayon
- Watercolors
- Glue dots
- Streamers

Directions:

- Use the white crayon to draw a design on the watercolor paper.
- Paint over your design with watercolors, then wait for it to dry.
- Glue the streamers to the bottom edge of the backside of your paper, then wait for the glue to dry.
- On the painted side of the paper, place the glue dots along one of the short edges (one at the top, one in the middle, and one at the bottom). Roll the paper into a tube and use the glue dots to secure it.
- Optional – you can attach a string on top to hang your windsock
