Subject: Agenda item 4-A for the 10/20/2021 council meeting

[EXTERNAL EMAIL]

Hi my name is Bill Lam and I am a current resident of Monterey Park and a student at CSUN and I am here to talk about item 4-A regarding about the redistricting from the 2020 Census data. Based on these two choices, I am in favor of option b to let the people draw the redistricting map using the public participation kit based on the 2020 census data on what the new lines would look like in the next decade.

Those are my brief comments thank you
