

WE CARE ABOUT YOUR NEIGHBORHOOD AND COMMUNITY

We're here to replace old, worn-out steel streetlight poles with new, concrete poles and light fixtures to brighten your evenings.

To do this, we'll have construction personnel in your neighborhood to safely remove and replace the streetlight poles on your block and re-energize the electric lines.

You should not lose power because of the work we do.

New pole locations will be designated by an "S/L" marking on the curb.

If you have any questions, please call SCE's representative at (714) 796-9869.

Thank You.
