Dear Mayor, Councilmembers, and City Clerk!

I frequent Monterey Park and I am writing regarding Agenda Item 9A on February 4, 2026.

I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers. Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process.

Thank you!

Sincerely,
Betty Hang

Dear Mayor, Councilmembers, and City Clerk,

I live in Monterey Park, and I am writing in regards to Agenda Item 9A on February 4, 2026.

I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers as they are too serious a drain on essential resources like water and electricity. Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process.

Sincerely,
Andrew Liu

City Council Written Communication

Individuals can complete this form to submit written comments to the City Council for a particular agenda item or for general comments within the City Council's subject matter jurisdiction. Please submit a separate form for each agenda item. Only one written comment per meeting for general public comments.

Please note that while communications will be provided to all Council Members and be part of the official record, they may not be read out loud as part of the meeting.

The City does not allow video files. The public may submit printed copies of their presentation/communications. The City recommends that individuals submit 9 hard copies to the City Clerk for dissemination to City Council and staff.

Written communications are received 24 hours before a regular meeting and 3 hours before a special meeting.

City Council meetings are held on the the 1st and 3rd Wednesdays of every month at 6:30 p.m.

Monterey Park Municipal Code Section 2.04 et seq. This is a public document and subject to disclosure.

Council Meeting Date 2/4/2026

Written Communication	<p>Though I am not a resident of Monterey Park, I live very close and consider Monterey Park to be a part of my immediate community. That's why I was extremely concerned when I heard that there were plans to build a data center in Monterey Park. Data centers consume massive amounts of energy, drive up costs of electricity and water for residents, pollute our environment, and provide very few jobs. There is zero upside for our community. I am glad that we were able to put a moratorium on any data centers being built for 90 days, but I urge city council to go further to prepare a ballot proposition to enact a permanent ban on any data centers being built in the city moving forward. Data centers have no place in our community.</p>

Dear Mayor, Councilmembers, and City Clerk,

I live in Alhambra and regularly visit Monterey Park to spend time with friends who live there. I am writing regarding Agenda Item 9A on February 4, 2026.

I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers. Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process. I would love to carefully consider how Saturn Park can be used to support the Monterey Park and larger SGV community, whether it be housing, community garden space, or something else.

Sincerely,
Elizabeth (Betsy) Storm

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Mayor, Councilmembers, and City Clerk,

I am a resident of Monterey Park writing regarding Agenda Item 9A for the February 4, 2026, meeting.

I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, I ask that you remove the housing component and focus the measure solely on banning data centers.

Including housing development in the ballot initiative risks derailing the efforts to ban data centers in the city. While I support developing more housing in our community, it can be a divisive issue. Not everyone who supports a data center ban necessarily supports increased housing. Housing in Saturn Park should instead be considered through a separate, engaged community process and removed from this specific discussion.

Thanks for your consideration.

Sincerely,

Jacqueline Sun

I support all options that result in a citywide prohibition on data centers.

If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers.

Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process.

Speaking of community, we came out at the last city council meeting to voice our opposition to the/any data center. Why don't you just put it on the agenda to ban it altogether? Other city councils have done this.

Why wait? Is it because of elections? Your hesitancy to make a decision to ultimately ban all data centers is highly concerning.

Sincerely,
Clotilde Jang and family

Dear Mayor, Councilmembers, and City Clerk,

I live in Commerce and I am writing regarding Agenda Item 9A on February 4, 2026.

I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers. Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process.

Sincerely,
Isela Velazquez

Dear Mayor Yang, Councilmembers, and Staff,

Mayor Yang and I had a very productive meeting where I communicated No Data Center MPK's understanding of our city's no data center laws.

Thought I would share with you as well so you know where we're coming from. The gist is: we already have two voter referendums that prevent the building of a data center: Measure D which outlaws anything that emits noise, fumes, smoke, and is STILL LAW (See text below) and Measure JJ.

While Ordinance 2253 (attached below) passed in 11/24 codifies that our modern understanding of a data center isn't included in the category of "innovation/technology", it allows for the development of a data center, and contradicts voter-approved Measure D and Measure JJ's banning of heavy industry. (I would argue that anything that requires a power plant exemption from the CEC, which HMC's data center requires, would be defined as "heavy industry.") Ord 2253 also assumes that the data center isn't subject to an EIR, but now we know it is (See Center for Biological Diversity's letter). Ordinance 2253 seems to repeat the same mistake from 2013 when city council tried to supersede voter-approved law with One Legacy. So maybe we repeal Ordinance 2253 as part of the data center regulations.

Thanks for reading and considering our viewpoints as we move forward together. And please feel free to correct our understanding so we're all on the same page!

All best,
Steven

Summary of context/history:

- 1998: Measure D - Saturn Park switches from "Industrial" to "Office Professional" zoning.
 - **"No use shall be permitted which produces or causes or emits any dust, gas, smoke, glare, noise, fumes, odors, electromagnetic emanations or vibrations which are or may be detrimental to the health, safety, welfare and peace of the city and its residents and businesses."** [[pg 96](#)] ←this is still in

the MPMC

- 2013: The city council updates the zoning in Saturn Park to allow helipads
- 2018: OneLegacy tries to move into Saturn Park, based on the zoning that allows helipads. As it turns out, Measure D **did not delegate authority to the City Council to make any changes to MPMC Chapter 21.14.**
- 2020: The city learns from Measure D. When they put Measure JJ forward, they include something that gives city council the ability to **“implement [Measure JJ] including, without limitation, adopting all zoning regulations needed to effectuate [Measure JJ] by ordinance.”** Measure JJ designates **McCaslin Business Park as “Innovation/Technology.”** Technically, heavy industrial land uses are not permitted, which suggests **data centers would effectively be outlawed by default.**

Uses for this designation include research and development; light manufacturing; service commercial; professional offices; entertainment; and breweries/ wineries/distilleries; trade and technical schools; public utilities, and similar uses “per zoning regulations.” **Prohibited uses are warehousing, freight terminals, vehicle storage, and heavy manufacturing.**

ORDINANCE NO. 2253

AN ORDINANCE AMENDING MONTEREY PARK MUNICIPAL CODE CHAPTER 21.14 (ZCA-24-02) TO AMEND REGULATIONS GOVERNING DATA PROCESSING FACILITIES IN ACCORDANCE WITH SECTION 3(A) OF ORDINANCE NO. 2198 (ADOPTED BY VOTERS AS MEASURE JJ ON NOVEMBER 3, 2020).

The City Council of the City of Monterey Park does ordain as follows:

SECTION 1: The City Council finds and declares that:

- A. This Ordinance is adopted pursuant to the voters' directives in Ordinance No. 2198, as adopted November 3, 2020 via Measure JJ.
- B. Based upon recommendations of the Saturn Park Advisory Review Commission ("SPARC"), the City Council will be considering expansion of uses within Saturn Park.
- C. As a preliminary matter, however, the City Council finds that there is a current interest by developers to construct "data centers" within Saturn Park. A review of the Monterey Park Municipal Code ("MPMC") confirms that the "data center" land use is not considered as part of the current zoning regulations. While a "data processing facility" is listed as an allowed land use within Saturn Park, that term is not defined. Additionally, since this term was added to the MPMC in 1998, it was well before the concept internet commerce emerged as the "new economy"; the term did not encompass the scope of uses contemplated by contemporary data center developers.
- D. It is plain that data centers – as they have developed in the 25 years since the Saturn Park regulations were first added to the MPMC – are energy hungry land uses that are generally aesthetically displeasing and provide few public benefits. Current data show that, overall, buildings consume 74% of all electricity in the United States.
- E. Goal 2 of the City's Environmental Justice Element provides that "Community health and the reduction of exposure to environmental pollutants is a priority and part of all planning and policy practices." Additionally, Goal 3.1 provides that the City should "[m]aximize the use of the City's existing open space network and recreation facilities by enhancing those facilities and providing connections, particularly from disadvantaged neighborhoods."
- F. These Goals and Policies reflect the City Council's overall intent to provide for a cleaner, greener, and more enjoyable community both for our current residents and for future generations.
- G. Requiring data centers to adhere with green building principles is a form of climate action that minimizes greenhouse gas emissions, relies on energy efficiency and renewable resources, conserves water, optimizes material use,

provides healthy and biodiverse environments, and bolsters an equitable society.

- H. Third party rating systems characterize the lifecycle considerations for green buildings. These programs can offer credibility, transparency, and consistency to project teams in pursuit of an elevated and well-defined performance standards for data centers.
- I. It is in the public interest to update the MPMC as to data centers while also considering additional uses for Saturn Park as contemplated by Measure JJ, SPARC, and the City Council.

SECTION 2: Pursuant to MPMC § 21.38.050, the City Council finds as follows:

- A. Land Use and Urban Design Element: This Ordinance complies with Policy 4.2 (Sustainable Practices); Policy 4.3 (Environmental Burden); Policy 4.4 (Freeway Buffer Greening); Policy 4.5 (New Development); Policy 4.6 (Active Transportation); Policy 11.1 (Privacy); Policy 12.1 (Compatibility); Policy 12.2 (Comprehensive Design); and Policies 25.1, 25.2, and 25.3 (specific as to Saturn Park).
- B. Environmental Justice Element: This Ordinance complies with Policy No. 2.1 (limiting environmental pollution); Policy 2.2 (promote enhanced health outcomes and improved quality of life); and Policy 3.2 (work with local business community to expand green space programs).
- C. These regulations will not adversely affect surrounding properties. Such regulations will operate citywide and will not affect a change in the use or the intensity of use of property in any zone.

SECTION 3: *Environmental Review.* The City Council finds and determines that this ordinance is not subject to further review under the California Environmental Quality Act (Public Resources Code §§ 21000, *et seq.*; “CEQA”) for the following reasons: (1) it will not result in a direct or reasonably foreseeable indirect physical change in the environment (14 Cal. Code Regs. § 15060(c)(2)); (2) there is no possibility that the ordinance may have a significant effect on the environment (14 Cal. Code Regs. § 15061(b)(3)); and (3) the ordinance, by itself, does not constitute a “project” as defined in the CEQA Guidelines (14 Cal. Code Regs. § 15378).

SECTION 4: *Renaming of Zone; Amendment of Zoning Map; Amendment of MPMC § 21.02.210.* All references to “O-P—OFFICE PROFESSIONAL ZONE (VOTER ENACTED)” within the MPMC are amended to read “S-P – SATURN PARK INNOVATION/TECHNOLOGY ZONE.” All references to the “O-P zone” within MPMC Chapter 21.14 are amended to read “S-P zone.” The reference to the “McCaslin Business Park (O-P Voter Enacted)” in the Zoning Map is amended to read “Saturn Park Innovation/Technology Zone.” MPMC § 21.02.210(B) is amended to add the “Saturn Park Innovation/Technology Zone” to the table of Zone Designations.

SECTION 5: MPMC Chapter 21.14 is amended to add sections 21.14.210 and 21.14.220 to read as follows:

“Chapter 21.14

S-P – SATURN PARK INNOVATION/TECHNOLOGY ZONE

* * *

21.14.210. Definitions.

Unless the contrary is stated or clearly appears from the context, the following definitions govern the construction of the words and phrases used in this chapter:

“Data center” means a building, dedicated space within a building, or group of structures located on one or more acres of land used to house a large group of networked computer systems used for data storage and processing for off-site and on-site users, to be used for the remote storage, processing, or distribution of large amounts of data. Such facilities may also include air handlers, power generators, water cooling and storage facilities, utility substations, back-up batteries, fire suppression systems, enhanced security features, and other associated utility infrastructure to support operations. This definition does not apply to smaller data processing facilities that are located on less than one acre of land and where such facilities are accessory or incidental to another primary use.

“Data processing facility” means a building, dedicated space within a building, or group of buildings primarily used for the processing, storage, and management of electronic data on less than an acre of land. This type of facility typically involves activities such as data entry, storage, conversion, and analysis for onsite use.

“Director” means the City Manager or designee. Unless otherwise designated by the City Manager, the Community Development Director is the Director.

* * *

21.14.220. Data Centers – Development Agreement Required - Requirements

Data centers are permitted only with a development agreement in accordance with Chapter 21.44 of this code.”

SECTION 6: *Electronic Signatures.* This Ordinance may be executed with electronic signatures in accordance with Government Code § 16.5. Such electronic signatures will be treated in all respects as having the same effect as an original signature.

SECTION 7: Construction. This Ordinance must be broadly construed to achieve the purposes stated in this Ordinance. It is the City Council's intent that the provisions of this Ordinance be interpreted or implemented by the City and others in a manner that facilitates the purposes set forth in this Ordinance.

SECTION 8: Severability. If any part of this Ordinance or its Application is deemed invalid by a court of competent jurisdiction, the City Council intends that such invalidity will not affect the effectiveness of the remaining provisions or applications and, to this end, the provisions of this Ordinance are severable.

SECTION 9: Recordation. The City Clerk, or designee, is directed to certify the passage and adoption of this Ordinance; cause it to be entered into the City of Monterey Park's book of original ordinances; make a note of the passage and adoption in the records of this meeting; and, within 15 days after the passage and adoption of this Ordinance, and cause it to be published or posted in accordance with California law.

SECTION 10: Effective Date. This Ordinance will become effective 30 days after second reading and adoption.

PASSED AND ADOPTED this 20th day of November, 2024.

Thomas Wong, Mayor

ATTEST:

Maychelle Yee, City Clerk

APPROVED AS TO FORM:

Karl H. Berger, City Attorney

State of California)
County of Los Angeles) §.
City Of Monterey Park)

I, Maychelle Yee, City Clerk of the City of Monterey Park, California, do hereby certify that the foregoing Ordinance No. 2253 was introduced, and placed upon its first reading at a meeting of the City Council of the City of Monterey Park, held on the 6th day of November, 2024. That thereafter on the 20th day of November, 2024, said Ordinance was duly passed, approved and adopted by the following vote:

Ayes: Council Members: Sanchez, Lo, Yiu, Ngo, Wong
Noes: Council Members: None
Absent: Council Members: None
Abstain: Council Members: None
Recusal: Council Members: None

Dated this 20th day of November, 2024.

Maychelle Yee, City Clerk
City of Monterey Park, California

Dear Mayor, Councilmembers, and City Clerk,

I live in Monterey Park and I am writing regarding Agenda Item 9A on February 4, 2026.

I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers. Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process.

Sincerely,
Alex

Dear Mayor, Councilmembers, and City Clerk,

I live in Monterey Park and I am writing regarding Agenda Item 9A on February 4, 2026.

I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers. Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process.

Sincerely,
(Your name)

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I want to express my strong opposition to the data center on Saturn Street.

I wanted you to know that I'm not only a current resident but a lifelong resident. I went to elementary school at both Brightwood and Monterey Highlands. I graduated from Mark Keppel and graduated from Cal Poly Pomona with a computer engineering degree. I currently live less than half a mile from the proposed data center location and am planning on staying here for the rest of my life. Monterey Park is my home and this proposed data center jeopardizes my future as well as my neighbors' future.

I'm currently working as an IT/AV engineer and have additional context to add to the Data Centers Report and Recommendations from Jan 9, 2024 found here. I want to reference page 60-61 where the report addresses noise generation. The Monterey park data center is citing 54-56 dB of noise consistently generated during normal operation. That means the data center will sound like a vacuum cleaner running 24/7. The paper also indicates that the generators will be tested between 5-9 PM. The sound produced by the generators will be equivalent to attending a concert. If there is a power failure, the generators can be on at any time, day or night. Most generators create low frequency sound that passes through most home building materials. We won't have any way to mitigate the sounds coming from that area.

The generator testing will occur during the softball nights at La Loma park which is 300 yards away from the data center. If there are any power outages that would require the backup generators to be used, then there will be a burst of pollution not only for the park and residents, but also for Hillcrest elementary.

Another issue with the data center is its energy consumption. It's projected to require 434 Gigawatt-hour which is twice the consumption of the entire residential homes annually. The data center will be tripling the demand for electricity for this city. As we know, if demand increases, prices will increase. The residents of this city already cannot afford the inflation and tariff price increases. Adding a demand-pull cost increase sets families in this city further behind.

I'm sure you all have been given these facts over and over again. I wanted to try to provide

context to those numbers without being hyperbolic. I want to emphasize this city has been and always will be my home. Most of my extended family lives here too. I've seen this city grow to where it is now but this data center feels like a step backwards. We should be looking for solutions that complement the people and the businesses that make Monterey Park home and a destination for others.

Thank you
Bosco Woo

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Mayor Yang, Council Members, and City Clerk,

I live on Isabella Avenue directly across the street from the fire station located on Garfield and Elmgate. Last month, I attended the city council last month for the first time ever after living in Monterey Park for over 30 years. I have returned to Monterey Park after living in Irvine for 12 years to care for my 90 year old mom. I did sign up to speak, however, I had to leave at 9:30pm to relieve my neighbor from watching my mom so I commend you all for staying late to hear everyone out.

After listening to neighbors, I have never been so proud to be a Monterey Park resident. While I understand some individuals were overly aggressive, I wanted to speak because I work at Lumen Technologies. I wanted to provide insights into technology companies, especially the big ones that mention AI so much that it makes me want to hurl. Lumen Technologies recently sold their residential network assets to AT&T to focus on enterprise business utilizing AI. The CEO, Kate Johnson, wants so desperately to get rid of the company's \$1.8 billion debt and stay relevant in a crowded industry that she's willing to compromise jobs, the company's historical ideals, and morals to press forward. Also, AI is the reason why AWS (Amazon Web Services) consistently lays off tens of thousands of jobs due to investments into AI data centers. They call it "AI driven efficiency" when the reality is that companies that implement AI models have a 95% failure due to trend-chasing, poor strategy, and misaligned execution. Essentially, it's a huge gamble whether AI will ever be normalized.

I strongly believe AI data centers should be built miles away from residential neighborhoods. During the holidays, I re-watched Erin Brockovich. The timing couldn't be more perfect because of the premise of the movie. Residents of the city of Hinkley, CA falling ill due to PG&E's unethical actions of poisoning water with toxic-level chromium then lying to residents about how it's good for them. Today, Hinkley is a ghost town and still contaminated. The decisions made today regarding the data center is your legacy for Monterey Park. I ask you - what kind of legacy would you like to leave after you retire from your roles as city leaders. One that can harm the city for years to come just for a trend and appeasing international investors for money or one of heroes who did the right thing for their constituents.

I also ask that you and future leaders to look at neighboring cities and how they lift up their residents. Cities such as Pasadena, South Pasadena, and Montebello have dog parks. Dog parks can build community and attract the right kind of residents. With the amount of dogs I see walked in my neighborhood, I seriously do not understand how there isn't a dog park. Also, there are so many opportunities to make the city much more beautiful than it is by planting more trees, implementing more street art, and modernizing architecture within the business districts. This strategy will bring in the right kind of businesses and customers,

therefore increasing revenue into the city.

In conclusion, I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers. Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process.

Thank you.

Regards,

Janice Yee

Dear Mayor, Councilmembers, and City Clerk,

Monterey Park is my home and I am writing regarding Agenda Item 9A on February 4, 2026.

I support all options that result in a citywide prohibition on data centers. If a ballot proposition moves forward, please remove the housing component and focus the measure only on banning data centers. Housing and future land uses in Saturn Park should be addressed through a separate, community-driven public process.

Sincerely,
Joyce Truong
